Mr. Oscar Blomgren

Dear Oscar,

I wanted to let you know how pleased we are with the new HCS-40 Hydraulic Cylinder Servicer. The machine is performing better than advertised and has already reduced our disassembly and assembly time. We have had the original Tuxco for some 25 years and it still works well, however the HCS 40 with the hydraulic nut runner and other enhancements is a vast improvement. We had the new HCS-40 operational in 3 days and held classes on proper operation the 4th day. The machine immediately went into service and started reducing our disassembly time by ½ on large piston nuts. I expect as we become proficient with the operation of the HCS-40 that time will reduce even further.

Please thank your staff for the time spent with our shop foremen during the demonstration and operational test prior to our purchase.

Sincerely,

Dennis Rich
